PROFESSIONAL SUMMARY

Quality-driven Coffee Professional with 9+ years leading specialty operations across roasting, barista work, and quality management. Delivered 25% product consistency improvement and 15% waste reduction through system implementation and team training. Accelerated quality metrics by 20% and maintained 98% roast consistency while managing 500+ kg monthly inventory and evaluating 30+ coffee lots weekly.

PROFESSIONAL EXPERIENCE

Head Barista

Al-Wefaq Company Qaffi | RIYADH | [2020] – [2022]

Executed 300+ precision specialty coffee beverages daily, maintaining perfect extraction consistency and optimal temperature parameters in high-volume environment.

Developed 4 proprietary signature drink recipes that accelerated seasonal sales by 15% and differentiated brand positioning in crowded coffee market.

Performed daily espresso machine and grinder calibration using precision tools, eliminating equipment downtime and ensuring extraction consistency across every shot.

Led 5-person shift team, implementing workflow improvements that accelerated customer service by 20% and established efficiency benchmarks.

Achieved 4.8/5 customer satisfaction rating through personalized service delivery and unwavering quality standards, driving repeat business and brand loyalty.

Coffee Quality Manager

Al-Wefaq Qaffi Company/ Yuraq Roastery | RIYADH | [2022] – [2025]

Designed and implemented enterprise-wide quality systems across production pipeline, elevating product consistency by 25% and overall quality scores by 20% within 12 months.

Trained and certified 15+ baristas on precision extraction and milk steaming, reducing coffee and milk waste by 15% (12K annual savings) through standardized SOPs.

Orchestrated professional cupping program evaluating 30+ coffee lots monthly, establishing quality benchmarks that strengthened bean selection accuracy and premium product positioning.

Optimized supplier management for 500+ kg monthly inventory, negotiating with 5+ key vendors and implementing vendor scorecards that maintained quality consistency and reduced procurement costs.

Elevated customer satisfaction to 4.8/5 stars through performance monitoring and quality-driven decision making, establishing operational benchmarks that sustained excellence.

Coffee Roaster

Yuraq Roastery / Today Specialty Roastery | [RIYADH] | [2025] – [2026]

Produced 200+ kg specialty coffee weekly using Artisan Roaster Software with 98% batch consistency rate, delivering premium-grade beans that exceeded flavor specifications.

Executed quality control on 100% of roast batches using ColorTrack, Agtron, and Rate of Rise analysis, identifying and correcting roast variables that optimized flavor development.

Engineered roast profile refinements through bi-weekly cupping analysis, increasing average bean flavor scores by 2 points and elevating batch-to-batch flavor consistency.

Minimized roast defects to under 2% by mastering chemical roasting phases, reducing waste losses and maximizing yield per production batch.

Maintained detailed roast logs for 50+ monthly batches with RoR tracking and temperature analysis, creating production database that enabled continuous process refinement.

COMPETITIONS & PROFESSIONAL DEVELOPMENT

Barista Championships – Horeca Expo

Competed in 3 consecutive regional barista championships (2022, 2023, 2024), demonstrating mastery of extraction technique, sensory judgment, and signature drink innovation under high-pressure competitive conditions.

TECHNICAL & PROFESSIONAL SKILLS

Quality Control & Assurance:

Quality Control Systems, Quality Assurance, Professional Cupping, Sensory Evaluation, Flavor Profiling, Batch Quality Analysis, Defect Mitigation, SOP Development, ISO Standards, HACCP Principles, Supplier Quality Management

Brewing & Espresso Operations:

Espresso Extraction Mastery, Grinder Calibration, Machine Maintenance, Precision Brewing, Extraction Optimization, Milk Steaming Techniques, Equipment Troubleshooting, Recipe Development, POS Operations

Roasting & Production:

Roast Profile Engineering, Rate of Rise (RoR) Analysis, Temperature Management, First Crack to Second Crack Optimization, Batch Production, Yield Maximization, Coffee Science, Artisan Roaster Software

Quality Analytics Tools:

Artisan Roaster Software, ColorTrack, Agtron, Sensory Evaluation Tools, POS Systems, Inventory Management Software, Microsoft Office, Data Analysis

Team Leadership & Operations:

Team Leadership, Staff Training & Development, Process Optimization, Workflow Design, Operational Excellence, Performance Management, Vendor Relations, Process Improvement, Lean Principles

Customer & Stakeholder Management:

Customer Service Excellence, Relationship Building, Stakeholder Communication, Vendor Negotiation, Conflict Resolution, Pressure Management, Time Management, Problem-Solving
